ABOUT

As a self-starter and experienced senior leader, I thrive in dynamic environments where I can immerse myself in new tech stacks and bring innovative ideas to life. My passion for software development is matched only by my love for the outdoors, and whether I'm hiking or long boarding, my mind is always buzzing with new entrepreneurial concepts. With a strong foundation in Java, NodeJS, and web technologies, I am ready to join a collaborative team where failure is never an option and every challenge is an opportunity to excel.

SKILLS

Java	OOP / OOD	TDD & JUNIT 5	Gradle & Maven
JavaScript	TypeScript	Angular / React	HTML/CSS/Bootstrap
JPA	Spring MVC	Spring Boot	REST API / Postman
JSP	JDBC	Git / GitHub	Agile SCRUM
NODEJS	C# / .NET	MySQL / Postgres / MongoDB	

WORK EXPERIENCE

Skill Distillery

Feb 2024 – June 2024

16 week Java-based full stack development bootcamp graduate

- Implemented several full stack applications using Java 8.
- Created RESTful interfaces with Spring Boot.
- Applied MVC pattern using Spring Boot and Spring MVC.
- Performed full CRUD operations on a relational SQL DB of my design.
- Front end with Angular, JavaScript, Bootstrap, HTML/CSS, JSPs.
- Applied test driven development, JUnit 5 and route testing with Postman.
- Collaborated in an Agile team incorporating SCRUM meetings, Git / GitHub, Trello, and Pair Programming.
- Released code in one week sprints.

PROJECTS

Lesson Locker – <https://github.com/pasciaks/LessonLocker>

Like an OCA Preparation application, Lesson Locker maintains a list of quiz style questions and answers for material related to coding concepts.

Technologies used: Java, JPA, Spring Boot, REST, Angular, HTML, CSS, Bootstrap, JavaScript, Agile

Event Tracker US Cities — <https://github.com/pasciaks/EventTrackerProject?tab=readme-ov-file#eventtrackerproject---sheldon-pasciak-skill-distillery>

Full CRUD operation on dataset of over 31k rows of US city data that queries and interacts with city details to analyze location data, population and other details for US Cities in US States.

Technologies used: Java, Spring Boot, JPA, SQL, HTML, CSS, Bootstrap, Angular, Agile

Pilot Education And Tracking - <https://github.com/pasciaks/MVCFullStackMidtermProject>

Mobile friendly full stack website that allows for the tracking of pilot qualifications for various aircraft.

Technologies used: Java, Spring Boot, JPA, SQL, HTML, CSS, Bootstrap, JSP, JSTL, Agile

Disability Planners
Full Stack Developer

Jan 2021 – Jan 2023

- Implemented several full stack applications using NodeJS/Express/React and MySQL.
- Created RESTful JSON web token API using NodeJS and MySQL Sequelize ORM.
- Front end with React, JavaScript, Bootstrap, HTML/CSS.
- Applied test driven development, API route testing with Postman.
- Collaborated in an Agile team incorporating SCRUM, Git and Pair Programming.
- Released code daily in fast paced small team environment.

EDUCATION

SKILL DISTILLERY, FULL STACK JAVA / ANGULAR WEB DEVELOPMENT BOOTCAMP, CERTIFICATE, JUNE 2024

SABIO, FULL STACK C# .NET / REACT FULL STACK WEB DEVELOPMENT BOOTCAMP, CERTIFICATE, JAN 2021

DAYTONA STATE COLLEGE, DAYTONA BEACH, FL
B.S., INFORMATION TECHNOLOGY, MAY 2017
